PROFILE

As someone who loves exploration and is curious about how the world works, I refuse to accept things at face value and am always searching for answers to satisfy my own curiosity.

"What you seek is seeking you." - Rumi

EXPERIENCE

- DISCOVERING CORE VALUES**
2015 - 2021 | Various companies and positions
Experiencing diverse roles helped me understand what truly brings value to myself, what I excel at, and where I want to dedicate my time for growth.
- FRONTEND DEVELOPER**
2021 - 2026 | T-Solution Vietnam Company
Participated in project development from the ideation stage to product launch, continuously improving the product based on user feedback.

Held primary responsibility for tech stack selection, solution consulting, architecture design, UI implementation, and performance optimization.

PROJECTS

ERP ENTERPRISE MANAGEMENT SYSTEM

Tech Stack: NextJS • Material UI • Zustand

Implemented the frontend dashboard for an ERP enterprise management system tailored for a company specializing in distributing beverage ingredients.

LOYALTY POINTS & REWARDS APPLICATION - USER APP & MERCHANT APP

Tech Stack: Expo • Firebase Messaging • React Native Elements • Zustand

Participated in conceptual production and UI implementation for the system. Held primary responsibility for tech stack selection and product delivery. Managed building and deploying applications to the App Store and Google Play.

LOYALTY POINTS & REWARDS APPLICATION V2 - MERCHANT WEB DASHBOARD

Tech Stack: NextJS • Shadcn UI • Zustand

Leveraged insights from the previous version to build a dedicated, optimized admin dashboard for merchants. Multi-step configurations were migrated to the web to maximize app-side simplicity. Held primary responsibility for tech stack selection and product delivery.

LOYALTY POINTS & REWARDS APPLICATION V2 - USER APP

Tech Stack: Expo • Firebase Messaging • React Native Reusables • Zustand

Re-implemented the user-facing mobile app interface with a more optimized flow. Held primary responsibility for tech stack selection and product delivery. Managed building and deploying applications to the App Store and Google Play.

LOYALTY POINTS & REWARDS APPLICATION V2 - MERCHANT APP

Tech Stack: Flutter • Shadcn UI • Firebase Messaging • Provider

Selected Flutter over Expo for the merchant app to ensure operational stability, optimize resource utilization, and provide cross-device support such as smartphones, tablets, and POS devices. Managed building and deploying applications to the App Store and Google Play.
